HOUSE CONCURRENT RESOLUTION NO. 24

BY STATE AFFAIRS COMMITTEE

A CONCURRENT RESOLUTION

STATING FINDINGS OF THE LEGISLATURE AND AUTHORIZING THE PRESIDENT PRO TEMPORE OF THE SENATE AND THE SPEAKER OF THE HOUSE OF REPRESENTATIVES TO APPOINT A TASK FORCE TO UNDERTAKE AND COMPLETE A STUDY OF THE ECONOMIC DEVELOPMENT OPPORTUNITIES RELATING TO THE BIOSCIENCE INDUSTRY IN THE STATE OF IDAHO, PARTICULARLY IN THE AREAS OF AGRICULTURAL BIOSCIENCES, IMAGING, POWER AND ENERGY AND NANOSCIENCE.

Be It Resolved by the Legislature of the State of Idaho:

WHEREAS, the bioscience industry is aimed at the development and management of biologically based organisms and ecosystems and is composed of a range of industry sectors which include agricultural feedstock and chemicals, drugs and pharmaceuticals, medical devices and equipment, research and testing, and academic health centers, research hospitals and research institutions. Nationally, bioscience is a \$50 billion industry with nearly 150,000 employees and 1,500 companies and it is an industry that is attracting significant venture capital. States across the country are trying to capture a piece of the bioscience industry and its high paying jobs; and

WHEREAS, the field of bioscience is expected to have an average annual employment growth between now and 2012 that is 13 percent greater than the average annual growth rate for all employment and, in 2003, jobs in bioscience had salaries that were at least \$26,600 higher than the national average; and

WHEREAS, bioscience research and product development is already underway in Idaho at state research universities, the private industry sector and the Idaho National Laboratory and the collective efforts of the industry have laid a solid foundation for strengthening Idaho's knowledge-based economy. Idaho's science and technology sector is growing faster than the national average, ranking first in the nation in patents per capita and Idaho's funding for university-based research and development continues to grow; and

WHEREAS, BioIdaho, the Idaho Bioscience Association, is a nonprofit organization founded in 2004 that brings together corporate, academic and political leaders to educate the public and to promote bioscience activities in the state. BioIdaho's activities include supporting funding for the biosciences, particularly at universities, increasing education and attracting the brightest researchers possible to Idaho, identifying and promoting opportunities for business intersections and collaborations, and advising government as required to develop policy and programs enhancing the bioscience industry and education; and

WHEREAS, Idaho has the opportunity to leverage its established agricultural industry and bioscience research assets at its state research universities to develop a vibrant bioscience industry. Idaho is attractive for existing bioscience companies to set up manufacturing operations because of Idaho's strong work ethic, attractive tax structure and business incentives; and

WHEREAS, agricultural biosciences, imaging, power and

energy and nanoscience are specialties of some of Idaho's biggest research institutions and companies, and supporting and encouraging these strengths will attract similar types of technology firms to Idaho.

WHEREAS, Idaho's bioscience industry represents the best of Idaho's future, including the future of young people, their education and job opportunities. Investment in the biosciences can lead to benefits for a state's citizens in terms of improved health care, cleaner environments and healthier foods.

NOW, THEREFORE, BE IT RESOLVED by the members of the First Regular Session of the Fifty-eighth Idaho Legislature, the House of Representatives and the Senate concurring therein, that the President Pro Tempore of the Senate and the Speaker of the House of Representatives are authorized to appoint a task force to undertake and complete a study of the economic development opportunities relating to the bioscience industry in the state of Idaho, particularly in the areas of agricultural biosciences, imaging, power and energy and nanoscience. The President Pro Tempore of the Senate and the Speaker of the House of Representatives shall determine the number of legislators and membership from each house appointed to the task force and shall authorize the task force to receive input, advice and assistance from interested and affected parties who are not members of the Legislature.

BE IT FURTHER RESOLVED that nonlegislative members of the task force may be appointed by the cochairs of the task force. Nonlegislative advisory members shall not be reimbursed from legislative funds for per diem, mileage, or other expenses and shall not have voting privileges regarding the task force's recommendations or proposed legislation.

BE IT FURTHER RESOLVED that the task force shall report its findings, recommendations and proposed legislation, if any, to the Second Regular Session of the Fifty-eighth Idaho Legislature.
